Career Objective

Computer Science undergraduate with strong foundations in Data Structures, Python, and Web Development. Experienced in building AI-driven and computer vision projects, seeking opportunities to apply problem-solving skills and software development knowledge in a Software Engineering role.

Education

Pranveer Singh Institute of Technology, Kanpur

2023 – 2027

B.Tech in CSE (Cyber Security)

CGPA: 7.7

Coursework & Skills

Data Structures & Algorithms, Object Oriented Programming, Database Management Systems, Computer Networks

Projects

Facial Emotion Detection System

GitHub Repository

Mar 2026 – Ongoing

Tech Stack: Python, TensorFlow/Keras, OpenCV, Flask

- Developed a real-time facial emotion recognition system using a Convolutional Neural Network (CNN) trained on the FER-2013 dataset (35k+ images).
- Classified seven human emotions (Angry, Disgust, Fear, Happy, Neutral, Sad, Surprise) with a test accuracy of 66.2% and macro F1-score of 0.63.
- Implemented real-time emotion detection from webcam (30 FPS) using OpenCV.
- Developed a Flask web interface with live video streaming and prediction API.

AI-Powered Fake News Detection System

GitHub Repository

Jan 2026 – Mar 2026

Tech Stack: React.js, JavaScript, NLP APIs

- Developed an AI-powered web application that analyzes news articles and classifies them as real or fake using NLP-based reasoning.
- Implemented credibility scoring, confidence estimation, and signal-based explanation for predictions.
- Designed an interactive React-based interface to visualize credibility signals and analysis results.

Sky Pointer: Virtual Mouse Using Hand Gestures

GitHub Repository

Aug 2025 – Jan 2026

Tech Stack: Python, OpenCV, MediaPipe

- Developed a computer vision-based virtual mouse system enabling cursor control using hand gestures.
- Implemented real-time hand tracking and gesture recognition using OpenCV and MediaPipe.

Technical Skills

Languages: Python, C, JavaScript, SQL

Web Technologies: HTML, CSS, React.js, Tailwind CSS

Libraries/Frameworks: TensorFlow/Keras, OpenCV, MediaPipe, NumPy, Pandas

Tools: Git, GitHub, VS Code

Databases: MySQL

Achievements

- Solved 200+ Data Structures and Algorithms problems on LeetCode. – LeetCode Profile
- Earned 3-star badges in Python, C, and a 5-star badge in Problem Solving on HackerRank. – HackerRank Profile

Certifications

- CSS3, Programming Fundamentals with Python, Python for Data Science, SQL, HTML5 — Infosys Springboard
- Problem Solving (Basic), Python (Basic), CSS (Basics) — HackerRank Profile
